Webtix Ticketing Options

Q. I am not interested in a print from at home option, but I'd like ticket buyers to be able to print a receipt. (I assume a confirmation will be emailed to them). Can I insert my own advertisements into what is emailed as well as printed on a receipt?

A. With Webtix, you can email a custom receipt to each of your ticket buyers, either via your in-house POS or online. Within that receipt, you may customize in any way like inserting a computer graphic, an advertisement, etc.
